

Postal Regulatory Commission

As a White Male Republican, I demand DeJoy be fired and that the commission restore the Post Office systems and equipment across America. I do not want a private postal service that helps DeJoy and his friends make billions. I want the Post Office restored to its level of 20 years ago. A strong Post Office is important to our democracy. I know some of my republican rich brothers want the profits from a private postal system, but I want and demand a public postal system. It is in the constitution and must stay.

Please restore the Post Office to its former glory. Fire DeJoy and rebuild all the systems and machines he has destroyed. DeJoy has destroyed billions of Postal taxpayer paid equipment in his efforts to destroy the Post Office. There must be a DOJ investigation into DeJoy's actions and the board members who supported his actions.

Thank you for your time and consideration.
